Social Sharing

Social Sharing allows viewers to share posts on social media outlets such as Facebook or LInkedIn

Topics

How do I turn social sharing on for the site?

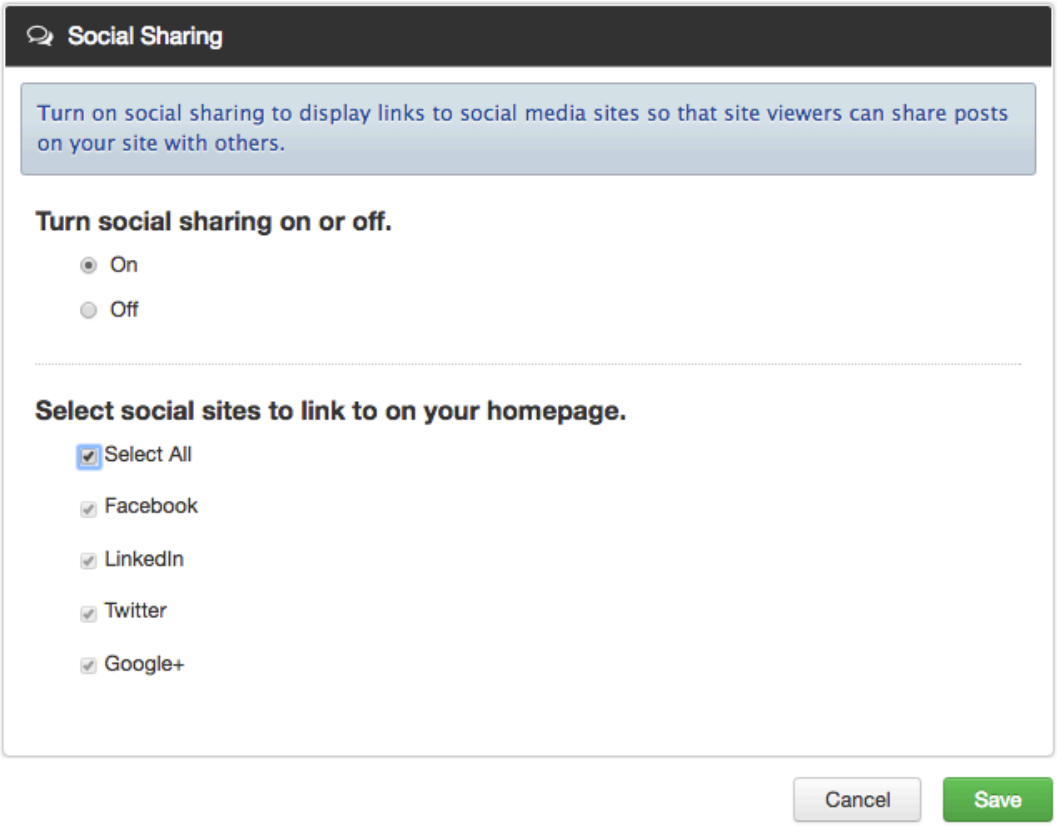
How does social sharing appear once it is turned on for the site?

Add Social Sharing | Appearance on a Site

Social Sharing

Add Social Sharing

From Manage Site, Select Site Options, then Social Sharing. Turn social sharing on for the site, then select the social sites that can be displayed as links on your home page.



QUICK TIP

Social sharing should be turned on for public sites, but turned off for private sites since others do not have login access.
